MEET AND HEAR FROM THE DEVELOPERS

Mareeba 232 Pty Ltd propose to develop a retail centre at 232 Byrnes Street, Mareeba.

The development is proposed to include:

- A full line supermarket
- Retail specialty stores
- A drive-through fast food outlet

Community benefits include:

- Provision of complementary retail options resulting in improved choice, variety, availability and accessibility.
- Provision of an additional full-line supermarket where only one option is available within a 30km drive distance from the subject site.
- Contribution to local and regional employment during the construction and operational phases.
- The proposed retail centre would not jeopardise or compromise any existing centre. Rather, it will recapture escape spending and consolidate centre activities within the designated Mareeba Centre zone.

The proposed development represents a substantial net benefit to the residents of the greater Mareeba area.
